Monday 2nd November 2026

Dear Parents and Carers,

Free Vision Screening Opportunity for Pupils – Tuesday 24th November 2026

We are delighted to be working with **Lions Clubs International** to offer a **free vision screening session** for our pupils.

Good vision plays an important role in a child's learning, confidence, and wellbeing. Sometimes children can have difficulties with their vision without realising it themselves, which can affect their reading, concentration, and enjoyment of school. This simple screening provides an opportunity to identify any potential concerns that may benefit from further investigation.

The screening:

- Is **completely free of charge**
- Takes only a few moments
- Is non-invasive and child-friendly
- Can help identify potential vision difficulties at an early stage

Please note that this screening is an initial check and does not replace a comprehensive eye examination with an optician. If any concerns are identified, you will be informed and advised of any appropriate next steps.

To enable your child to take part, please complete and return the attached consent form by Friday 20th November.

We strongly encourage all families to take advantage of this valuable opportunity. Early identification of vision difficulties can make a significant difference to a child's educational experience and everyday life.

Thank you for your support.

Kind regards,

Andrea McCormack

SENDCO and Family Liaison Officer
